HomeController.cs

Make 'Index' a static method.   ⌄

14 (/app/dariia.marku/JS/file/7687689679/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
public string Index()
```

Remove this commented out code.   ⌄

26 (/app/dariia.marku/JS/file/7687689679/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
/*for(var x in result) {
```

Remove this commented out code.   ⌄

34 (/app/dariia.marku/JS/file/7687689679/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
//  var jsonRes = new { arr = res };
```

Make 'Delete' a static method. ⌄

90 (/app/dariia.marku/JS/file/7687689679/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
public ActionResult Delete(int id)
```

Make 'Delete' a static method. ⌄

97 (/app/dariia.marku/JS/file/7687689679/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
public ActionResult Delete(int id, FormCollection collection)
```

LatLngUTMConverter.cs

Remove this commented out code. ⌄

24 (/app/dariia.marku/JS/file/7687689680/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
/* System.Console.WriteLine("Provide Latitude: ");
```

Remove this unnecessary cast to 'int'. ⌄

66 (/app/dariia.marku/JS/file/7687689680/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
dataG[i, j] = (int)rnd.Next(1, 100);
```

Remove this unnecessary cast to 'int'. ⌄

82 (/app/dariia.marku/JS/file/7687689680/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
dataG[i, j + 1] = (int)rnd.Next(1, 1000);
```

Make 'GetUtmLetterDesignator' a static method. ⌄

153 (/app/dariia.marku/JS/file/7687689680/issues/source?bid=4838392&fileBranchId=4838392#l@result.result.startLine)

```
private String GetUtmLetterDesignator(double latitude)
```

Add curly braces around the nested statement(s) in this 'if' block. ⌄
